ISSUE 5

MARCH 2013

I believe that you hold the information that you require for your own healing process.

My passion is to help you tap into this knowledge and to guide you on your own path to health and freedom—on all levels.

This is the energy & philosophy that I commit to my sessions with you.

To help you weave a greater awareness in understanding your process. To help you find freedom from dis-ease. To help unlock your personal power & allow a new freedom & inner strength to stand tall in your own life and to help you reach your full potential.

"I am sure, Donna put a lot of time and effort in to gaining all her knowledge but this alone doesn't make her an outstanding homoeopath.

She seems to have a gift to really listen to and to tune into people in order to find the underlying problem. She has got a very open, friendly personality and I am sure I am not the only one of her clients who is made feel welcome, listened to and safe in her consultations and in general. Donna sure is a great gain to our community and I cannot thank her enough for what she has done for us." ER
